INTRODUCCIÓN

Las prácticas en empresas son una de las opciones más interesantes para jóvenes graduados/as que aun no tienen experiencia profesional relevante que reflejar en su CV cuando llega el momento de incorporarse al mercado laboral.

El objetivo del periodo de prácticas es proporcionar al alumno el conocimiento directo del funcionamiento de una entidad con el objetivo de mejorar sus posibilidades de encontrar un puesto de trabajo adecuado a su formación, por lo que está convirtiéndose en una actividad imprescindible, actuando como una pasarela que comunica al estudiante en el tramo final de la carrera con el primer empleo, especialmente en momentos de crisis económicas como la actual.

Las prácticas permiten:

- Aplicar en contexto real los conocimientos adquiridos en la Universidad o institución educativa.
- Completar la formación con otros conocimientos prácticos relacionados con las salidas profesionales de la carrera.
- Conocer de primera mano, los condicionantes presentes hoy en el mundo del trabajo: competitividad y calidad, apertura de los mercados, globalización de la actividad económica etc.

Legislación sobre las Prácticas de Universitarios en Empresas

En nuestro país las prácticas de los estudiantes universitarios en empresas están reguladas por el [Real Decreto 1707/2011](#), de 18 de noviembre, por el que se regulan las prácticas académicas externas de los estudiantes universitarios. Estas son las cuestiones legales más importantes a tener en cuenta sobre la regulación de las prácticas en España:

- Podrán realizarse en la propia universidad o en entidades colaboradoras, tales como, empresas, instituciones y entidades públicas y privadas en el ámbito nacional e internacional
- Las prácticas externas extracurriculares tendrán una duración preferentemente no superior al cincuenta por ciento del curso académico, sin perjuicio de lo que fijen las universidades, procurando el aseguramiento del correcto desarrollo y seguimiento de las actividades académicas del estudiante.
- Es frecuente que las empresas concedan a los estudiantes ayudas económicas para realizar las prácticas bajo la denominación de "Bolsas o Ayudas al estudio", pero se trata de una ayuda, no de una remuneración o contraprestación.
- La realización de prácticas- y esto es muy importante- no entraña el establecimiento de relación laboral alguna entre el estudiante y la entidad que le acoge.
- Las condiciones estipuladas para la estancia se plasman en un Convenio, que es el equivalente, en el plano no laboral, al contrato. Los organismos que gestionan las prácticas y la mayoría de las empresas disponen de sus propios modelos de convenios.
- El Suplemento Europeo al Título recogerá las prácticas externas realizadas.

PRÁCTICAS EN EMPRESAS E INSTITUCIONES EXTRANJERAS

Se trata de una forma más de **perfeccionar** –que no *aprender*- el idioma trabajando.

Generalmente no tienen remuneración, aunque en algunos programas se incluye una beca destinada a gastos personales. Normalmente las prácticas están destinadas a jóvenes titulados/as universitarios/as y estudiantes de últimos cursos de carrera.

Características:

- Edad entre los 18 y 30 años.
- Nivel alto del idioma del país.
- Proceso de selección de los/as candidatos/as (no hay aceptación inmediata por cumplir los requisitos).

Las tareas a realizar variarán en función del perfil profesional. Las actividades más ofertadas son las relacionadas con los campos de la **medicina, ingeniería o disciplinas técnicas, administración de empresas, sociología-políticas, derecho**, etc.

Muchas empresas y ONG's u Organizaciones Internacionales ofrecen la posibilidad de firmar un **convenio** con la institución educativa del estudiante interesado/a en realizar un periodo de prácticas en estas organizaciones como parte de su formación práctica obligatoria a lo largo de los estudios. En los links que incluimos a continuación podrás decidir qué tipo de instituciones y/o empresas trabajan en el campo en el que te gustaría realizar prácticas, así como las condiciones de las mismas (duración, posible remuneración, departamentos, titulaciones demandadas, etc.)

Normalmente, la **valoración** de los/as candidatos/as en los procesos selectivos para acceder a un periodo de prácticas en otro país o en Organizaciones Internacionales tienen en cuenta:

- a. Expediente académico.
- b. Formación complementaria en alguna materia de interés para la organización.
- c. Conocimiento de idiomas (además del inglés, otro idioma europeo además del materno es una ventaja)
- d. Capacidad del candidato/a para adaptarse a un ambiente multicultural.

En los links que te ofrecemos a continuación encontrarás información sobre las distintas posibilidades en el ámbito de las prácticas en empresa en otros países (condiciones, posible remuneración, criterios de selección, disciplinas aceptadas, etc.). El listado, en todo caso, no pretende ser exhaustivo.

Algunas de las instituciones que se presentan pueden aparecer repetidas en dos o más apartados (por dependencia funcional o por temática o perfil de candidatos/as). Cuando el conocimiento del idioma sea necesario para optar a un periodo de prácticas, se ha conservado la introducción general **en el idioma** original de cada link.

Por favor, ten en cuenta que las instituciones públicas o privadas no europeas pueden establecer requisitos de acceso a sus programas que incluyan estar en posesión de visados y/o permisos de trabajo en vigor.
