

Puesto de trabajo: INGENIERO/A NAVAL O DE PUERTOS (Ref. VDAB 69228178)

Nº de puestos: 1

Lugar: **Bélgica (BETTEREN) o España**

Fecha: 3/9/2024

HAEDES (<https://www.haedes.eu/>) es una consultora de ingeniería que busca Ingeniero/a de puertos o naval para proyectos internacionales (España entre ellos). Para su proyecto español puede trabajarse desde España o Bélgica.

Perfil del candidato:

- Experience with port & hydraulic design (erosion protection, breakwaters, rock-berms, etc.) and/or coastal engineering, planning and design of maritime structures, ports, harbours and coastal works and related standards and guidelines.
- Basic knowledge of geotechnical & structural knowledge.
- Solid Experience with GIS and programming skills, preferable Python.
- Experience applying statistical data analyses.
- A sense for independency and responsibility.
- Communicative fluency and interest in managing projects. Good english
- A flexible, growth-mindset and positive attitude.
- A live-learning attitude.
- Empathy, a constructive attitude to deal with different viewpoints and opinions.

Funciones:

At HAEDES you will find the opportunity to explore your passion and skills in various projects where you can use your knowledge in engineering, planning and design of maritime structures, ports, harbours and coastal works, following state-of-the-art guidelines & standards. You will be able to develop with us the design of innovative and nature based solutions for challenges at our coasts, estuaries and ports.

Condiciones laborales:

- Salary: For a starter engineer around 3,200 euro gross. For someone with 5 years' experience will be around 4,000 euro gross (14 months)
- Hospitalisation insurance, group insurance.
- Permanent work, full time

Interested candidates send CV to Dhr. De Sutter Renaat renaat.desutter@haedes.eu
with copy to eures.franciasuizabenelux@sepe.es
