

Truck or Bus mechanics

Ref. number WBS: 3916423

Lugar: Países Bajos

Fecha: 22/10/2024

What are you going to do?

Are you an enthusiastic Truck or Bus Mechanic or willing to become one? Do you have experience with tinkering with buses, trucks, fire trucks, cars or do you want to gain experience in this? Then we are looking for you! We are looking for a driven commercial vehicle mechanic who performs maintenance work and repairs on big vehicles. You get a workplace where you get to work with nice colleagues to keep the vehicles of our customers running. A big responsibility! Of course you will have the opportunity to develop further and we will offer you training.

These will be your tasks:

- You work on solving (complex) malfunctions, both mechanically and electrically;
- You carry out maintenance work on the buses.
- As a commercial vehicle mechanic, you work on large equipment every day, including buses, trucks, fire trucks or garbage trucks. This means that in addition to mechanical work, you have a lot to do with, for example, diagnosing and troubleshooting. However, the function is much broader than that. In addition to tinkering with large equipment, you also tinker with the camera systems, payment systems, air conditioning, heating and the digital screens.
- Would you like to work for an employer where there is a lot of variation in your work and in vehicles? Then sure come and talk to us!

What do we expect from you?

- As a Commercial Vehicle Mechanic you regularly switch between work assignments and you must be able to work very accurately. In addition, you also have a very customer-friendly attitude. You are pleasant to deal with customers and with your colleagues. We also find the following important:
- You have a flexible attitude and do not have a 9 to 5 mentality. We think it is important that our customers are always helped quickly and professionally;
- You are technically savvy and possess key/tinker skills;
- Affinity with large vehicles.
- With us you will have opportunity to grow and develop yourself further. You are therefore prepared to follow education and training for this industry. We bear the costs.

What do we offer?

- An important position in an established, growing and healthy organization. This is how you can safely see the role of Commercial Vehicle Mechanic at Orion. That is why you can count on:
- A good salary (negotiable). Depending on experience, age and diplomas;
- An employer who has an eye for his employees and where your opinion counts;
- A good pension and group health insurance with a generous contribution from us;

- Opportunity to develop further, for example to First Mechanic or Technical Specialist. Hereby we take care of all costs for your study and development;
- Of course it would be nice to learn the language in the country where you are working at. So we also take care of the costs to learn the Dutch language;
- Pon Fit: participate in boot camps, cycling rounds, running events, golf clinics and much more;
- Even more excellent employment conditions, such as Pon training programs, company physiotherapy and coaching for change towards a healthy lifestyle.

About the organization:

Orion is a healthy and familiar company and we stand for diversity and inclusiveness. Everyone is welcome and that's why we think it's great to be part of this company.
