

Puesto de trabajo: PIP&Service Kits Procurement Analyst

(Ref. VDAB: 67089638)

Nº de puestos: 1

Lugar: 8210 ZEDELGEM, Arr. Brugge - Bélgica

Fecha: 19/09/2023

Información sobre el puesto:

The PIP (Product Improvement Program) Procurement Analyst ensures the availability of PIP & Service kits, from PIP & Service kit and its components set-up until the kits are available in stock, to support Product Quality Team campaigns for product improvement, as well as Dealer & Customer Support actions.

Reporting to the AGCE Kits & PIP Planning & Follow-up Manager, he/she works in coordination with Global & Regional Parts Operations departments (PLC, Purchasing, Planning, Procurement, Costing, Pricing, Distribution, DPS, Inventory Management, Marketing) as well as with Product Quality Team, Dealer & Customer Support and PIP Office to ensure the PIP & Service kits availability and conduct all required actions.

Competencias relacionadas con el puesto:

- Coordinate and monitor the set-up, sourcing, costing, pricing, ordering, expediting, building of PIP kits & components until available to have the PIP launched
- Align with Regional and Global Product Quality Team to make sure we have the technical information, scope and content of the PIP
- Implement special actions if required to have kits available in time and prevent backorders
- Liaise with the depots to prioritize the kit building and manage potential issues
- Participate in European & Global calls organized by PIP Office, Product Quality Team, Dealer & Customer Support concerning PIP launches and follow-up on actions to be implemented
- Coordinate with Product Quality Team, Dealer & Customer Support and PIP office on timing and priorities
- Liaise with the PIP Office Team to decide on best timing for PIP release, communicating kits availability status and estimation
- Monitor partially released PIP until 100% availability
- Manage with Finance on extra costs re-allocation (like air freight, special shipments or extra resource for the supplier, ...)
- Manage PIP kits phase-out when the PIP are closed
- Analyze, manage and follow-up tasks in K2 system (PIP System)
- Share PIP kits historical sales analysis when requested by PIP Office

- Analyze, adjust and approve order proposals for Service kits in the system
- Analyze kits orders, looking for solutions/information and implement corrective actions in order to provide the best estimated availability date for the kit
- Maintain updated clear and precise information kits availability in the system

Competencias del candidato:

- You follow in autonomy a portfolio of PIP & Service kits.
- You are responsible to make the various stakeholders aware of the potential urgency of the situation and should solve autonomously the supply issues related to kits components, actively thinking out of the box solutions. He/she should escalate if needed.
- You can organize his/her workload respecting the priorities, following closely on special actions related to PIP.
- You seek continuous improvement of PIP tools and existing processes.
- You are responsible for a Service kits portfolio built in several European depots. He/she should therefore plan on a regular basis in an optimal way the kits orders.
- Expert knowledge in Supply Chain Management and Operations
- Mandatory Fluent in English (read, written, spoken)
- Strong organization skills
- Excellent analytical and problem-solving skills
- Great resistance to stress & being able to adapt quickly to critical situations
- Good verbal & nonverbal communication skills (clear & effective)
- Working Customer focused & Results orientation
- Self-motivated with high energy level and a strong work ethic
- Team player and able to work autonomously
- Office Pack Advanced skills (Excel mandatory, Access recommended, Word, Powerpoint & Outlook, PowerBI)
- Ability to adapt to work with internal IT Systems
- Demonstrate CNHi Product Interest (knowledge is a plus)
- Location : Zedelgem or Le Plessis
- Travel : 5% national and international

¿Qué te ofrecemos?

- Permanente contract, full time
- Salary: 48k-60k gross anual salary
