Duration of employment	Minimum of 12 months
Working time	Full-time

Salary: (gross)	14 €-16 €/h
-----------------	-------------

Final company: Lehtosen Konepaja Ltd is a mechanical engineering company that began operation in 1923 and specialises in the heavy metal industry. The engineering company, located at Peipohja in Kokemäki, employs approx. 140 professionals. The range of production areas includes system deliveries, body manufacture, and the production of complex machined components. Lehtosen Konepaja's area of special expertise is comprehensive subcontracting. They are a systems provider and manufacture customers' semi-finished products into finished products and machines.

Our client, Lehtosen Konepaja Ltd, is looking for welders in the machine industry to make a specific work. The recruitment process includes a carbon-arc air gouging test. Completing the test successfully is a requirement for the job.

Job location: Haanmäentie 31, 32810 Peipohja
