Vacancy

Based in Grenoble, the ILL is an international centre for fundamental research founded by France, Germany and the United Kingdom. It is Europe's leading facility for neutron science and operates the brightest neutron source in the world. Are you keen to work in a constantly evolving technical environment? Do you enjoy working on a variety of tasks? Then come and join our IT Service's 8-person "Infrastructure" team to assist with the maintenance and operation of our telecommunications networks and equipment.

Telecommunications and networks technician

Yours Tasks

As a member of the team, you will take an active role in the following:

- Directing and carrying out low and high-voltage cabling work
- Installing and configuring equipment, in particular telephone and network equipment
- Configuring and maintaining the mobile phone fleet, telephony software solutions and physical access management solutions
- Monitoring maintenance of the telephony solution on the EPN campus
- Monitoring and supervising the work of outside service providers in all these areas.

Qualifications / Experience:

- You have a Level 2 vocational qualification (NVQ, City & Guilds or equivalent), as well as at least 20 years' experience in telephony and low-voltage networks (or equivalent).
- You have the necessary qualifications to work on low-voltage electrical installations (habilitation électrique BC/BR), certification for working at height and an aerial platform/cherry picker operator licence (CACES Group A and B or equivalent).
- You have a good knowledge of Alcatel, DECT and VoIP telephone systems, intercom systems and access control systems.
- Experience in mobile fleet management (GSM and satellite) would be appreciated.
- You must be proficient in low-voltage cabling work and be able to supervise such work.
- You are proactive, can work independently and have a service-oriented attitude.
- You can communicate orally in English in your area of expertise.
- Experience of working at an international research organisation would be appreciated.

We offer:

- ✓ **Quality of life** A hub for research and technology, the city of Grenoble is ideally located in the heart of the French Alps (just 3 hours from Paris/Provence by train, 1 hour from Lyon international airport and 1 ½ hours from Geneva). It is important for us that our staff achieve a healthy work-life balance. We therefore offer home working (under certain conditions), generous annual paid leave entitlement and a host of other benefits that you will discover when you arrive!
- ✓ **Prospects** We guarantee you an indefinite-term contract in a multicultural scientific environment.
- ✓ **Benefits** - We offer generous social benefits (expatriation allowance, excellent health cover), moving and relocation assistance (under certain conditions) and an annual productivity bonus. We also offer language courses for you and your partner and subsidies for the use of public transport and the staff canteen, as well as for holidays and a variety of cultural and sports activities.

How to apply:
