

Electrical Draughtsman

Number of Posts: 1

Contract Type: definite / Part time

Job description:

As an Electrical Draughtsman, you will be responsible for creating detailed electrical schematics and layouts for control panels using Eplan software. You will work closely with our engineering team to ensure the accuracy and quality of our designs, contributing to the successful delivery of our projects.

Requirements:

Key Responsibilities:

- Develop detailed electrical schematics and panel layouts using Eplan software.
- Interpret technical specifications and project requirements to produce accurate designs.
- Collaborate with engineers and project managers to ensure designs meet client specifications and industry standards.
- Maintain and update existing drawings and documentation as required.
- Assist in the preparation of technical reports and documentation.
- Ensure all designs comply with relevant safety regulations and standards.

Requirements:

- Proven experience as an Electrical Draughtsman with a focus on control panels.
- Proficiency in Eplan software is essential.
- Strong understanding of electrical schematics and panel layouts.
- Excellent attention to detail and accuracy in design work.
- Ability to work independently and as part of a team.
- Strong communication and interpersonal skills.
- Knowledge of relevant industry standards and safety regulations

Training provided: Training will be provided.

Salary: Euro 25 – 42 per hour
