

2 ELECTRICIANS FOR SMS group

About the role

As an electrician with us you will work with both low- and high-voltage tasks, primarily focused on our machinery fleet which includes equipment such as grinding and milling machines. You will be responsible for maintenance and troubleshooting of electrical systems and instruments to ensure optimal operation and safety. The role requires a solid understanding of electrical circuits and components as well as the ability to work with complex machines.

Essential requirements:

- We are looking for someone with several years' experience as an electrician and who is comfortable working with both machinery and switchgear in heavy industry.
- You work systematically when troubleshooting, whether you are dealing with automation systems or machines.
- It is natural for you to use tools such as drawings and electrical schematics to understand the system/machine function and design.
- You have a secondary school diploma in electrical engineering and automation, or equivalent vocational training or experience.
- Place of work: Boden, Sweden
- Hours x week: 40
- Contract: Permanent with 6 month trial period
- Starting date: From January 2026
- Range between 31 000 – 40 000 SEK/month depending on experience

How to Apply

Online application form: [Elektriker / Electrician \(f/m/d\)](#) on SMS career page. Por favor comunica a eures.nordicos@sepe.es que has completado la solicitud.

Last day of application 31 dec 2025. Recruitment process is on going and the position may be filled before the last date of application.

Additional information:

If you are a citizen or long-term resident of an EU country, Norway, or Iceland and receive an offer of employment, you can apply for relocation (financial) support for you and your family from EURES Targeted Mobility Scheme Sweden. It also applies for job interviews and Swedish language courses.
