

Vacancy

Scientific Coordinator of the Science Hub for Advanced Manufacturing

Yours Tasks

As coordinator of the Advanced Manufacturing Science Hub reporting directly to the Director of Science, you will:

- Propose and manage a five-year research programme addressing scientific and societal challenges using neutron experimental capabilities.
- Submit a five-page proposal outlining the research programme, including objectives, milestones, key performance indicators, a timeline, and a resourcing plan.
- Oversee the implementation of in-situ/in-operando 3D printing support infrastructure at the ILL.
- Coordinate and lead a team of ILL scientists and external users to achieve the programme's objectives.
- Ensure the programme's scientific excellence through a competitive, peer-reviewed proposal process.
- Develop collaborations on the EPN campus, particularly with the ESRF.

Qualifications / Experience:

- High-level scientific expertise in Advanced Manufacturing.
- Strong knowledge and experience in neutron experimental methods, especially neutron scattering and imaging.
- A clear vision of how neutron methods can contribute to Advanced Manufacturing research.
- Significant experience in managing scientific programmes and projects.
- Excellent communication and interpersonal skills for scientific coordination.

Applicants must complete and submit the project template available via following link as part of their online application: <https://cloud.ill.fr/index.php/s/LbH4e3Def8cZ7nL>

For any questions related to the project, please contact jestin@ill.fr (do not send applications to this address).

We offer:

- ✓ **Quality of life** A hub for research and technology, the city of Grenoble is ideally located in the heart of the French Alps (just 3 hours from Paris/Provence by train, 1 hour from Lyon international airport and 1 ½ hours from Geneva). It is important for us that our staff achieve a healthy work-life balance. We therefore offer home working (under certain conditions), generous annual paid leave entitlement and a host of other benefits that you will discover when you arrive!
- ✓ **Prospects** We guarantee you a **5-year contract** in a multicultural scientific environment.
- ✓ **Benefits** - We offer generous social benefits (expatriation allowance, excellent health cover), moving and relocation assistance (under certain conditions) and an annual productivity bonus. We also offer language courses for you and your partner and subsidies for the use of public transport and the staff canteen, as well as for holidays and a variety of cultural and sports activities.

How to apply:

Then why not take your next career step with us by applying online - preferably in English - via our career portal by **22.07.2025**, quoting reference number 25/22 with a list of publications and the names of 3 referees, including one from your present work place. Please note that all applicants are subject to administrative screening (background checks) and that medical fitness for work under ionising radiation is required. We are committed to equal opportunities and diversity and therefore welcome applications from all suitably qualified candidates. Please note that the interviews will take place during the **week beginning 29 September**.
