

Vacancy

Mechanical shift operations technicians

Your Tasks

Your main duties will be to:

- operate the reactor installations (preparation of hydraulic, electrical and miscellaneous fluid circuits),
- monitor the reactor, shut down reactor installations in safe mode and perform minor repairs,
- prepare and conduct periodic tests and reactor start-up tests,
- draft operating procedures and instructions,
- design and implement modifications to improve operating conditions.

You will be required to work round-the-clock shifts on a rota basis (2 x 12h).

Qualifications / Experience

You have a Level 4/5 qualification (NVQ, HNC/HND, foundation degree or equivalent) in a relevant field such as industrial engineering, process engineering, mechanical maintenance, or thermal or electrical engineering, and at least three years' practical experience in an industrial setting.

- Experience of reactor operations in a nuclear environment would be an asset.
- You are organised and methodical in your work and able to work independently, with good writing skills.
- You are able to work alone or as part of a team, have a strong service-oriented attitude and are able to take initiative while complying with regulatory requirements.
- Good command of written and spoken French. Knowledge of English would be an advantage

We offer:

- **Quality of life** A hub for research and technology, the city of Grenoble is ideally located in the heart of the French Alps (just 3 hours from Paris/Provence by train, 1 hour from Lyon international airport and 1 ½ hours from Geneva). It is important for us that our staff achieve a healthy work-life balance. We therefore offer home working (under certain conditions), generous annual paid leave entitlement and a host of other benefits that you will discover when you arrive!
- **Prospects** We guarantee you a secure permanent **contract** in a multicultural scientific environment.
- **Benefits** - We offer generous social benefits (expatriation allowance, excellent health cover), moving and relocation assistance (under certain conditions) and an annual productivity bonus. We also offer language courses for you and your partner and subsidies for the use of public transport and the staff canteen, as well as for holidays and a variety of cultural and sports activities. For more details, visit <https://www.ill.eu/careers/working-at-the-ill/employment-conditions>.

How to apply:

Then why not take your next career step with us by applying online - preferably in English - via our career portal by **07.06.2026**, quoting reference number **26/22**. Please note that all applicants are subject to administrative screening (background checks). For this post, medical fitness (including for work under ionising radiation) is required. You will also have to perform an emergency response role in the event of a crisis. Please note that the final round of interviews will take place during the week of 13 July.

We are committed to equal opportunities and diversity and therefore welcome applications from all suitably qualified candidates.
