

CNC Operator for Nordmark

[Nordmark](#) seeks a CNC operator in Sæby! Join our team for challenging tasks & growth in the wind industry. Training & benefits offered.

Nordmark is looking for a new colleague.

At our factory in Sæby, we are looking for a CNC operator for turning tasks who can be part of our experienced team. Your primary tasks consist of machining large components on the Honor Seiki PL-350CM CNC Carousel lathe with X and Y axis. The machine has Fanuc 32i-model B control, as well as Giana lathes with Siemens control.

Who are we?

At Nordmark, we specialize in processing large components for, among other things, the wind industry. We have more than 20 years of experience in the industry and take pride in providing high service within our area.

In our daily life, we work "The collaborative way", which means that we work closely with our stakeholders to ensure a strong relationship. By sharing know-how within Nordmark and being forward-thinking, we make sure that our employees are highly skilled.

When you are employed at Nordmark, you will also be met by our 5Cs; Competent, credible, collaborative, climate friendly and committed. It is our values and those that form the framework for our entire company and the way we approach tasks.

At the same time, the following experience and skills will be an advantage in the job:

- Is a trained industrial technician
- Knowledge of Fanuc
- Is reliable and flexible
- Takes responsibility and can work independently
- Has good collaboration skills, you must speak English

At Nordmark, you can expect us to offer you:

- Independent and challenging job in an informal company
- Exciting company in growth with a good working environment
