

# Preschool and Primary school teacher

**EURES SUECIA ESTARÁ PRESENTE EN EL FORO UPV (Valencia) en el stand EURES, el 17 y 18 de mayo informando de esta y otras ofertas de empleo**

**Are you a licensed Preschool or Primary School teacher** and want a change of school system where children can be children, where learning and playing are equally important?

Then we would like to receive your CV and cover letter!

Sweden has a substantial shortage of teachers both in Preschool as in Primary school, therefore we would like to meet trained and qualified teachers.

Teaching is a regulated profession for which you need a license, for that you need to speak the language at quite a high level. Fortunately we work with several municipalities who realise it is important to not only learn the language from a book but also apply it in your daily work. However it is important to know that you need to put time and effort in learning the language before you come to Sweden. The proposed level of Swedish should be B1-B2 on scale of the Common European Framework of Reference for Languages (CEFR).

As long as you are learning the language and not yet are in the possession of a license, municipalities can only offer you a one year at a time contract. As soon as you have reached the level of C1 than you have the possibility to apply for a license.

Want to know more about license and regulations? Read more about this at: <https://www.skolverket.se/regler-och-ansvar/larar--och-forskollararlegitimation/larar--och-forskollararlegitimation-med-utlandsk-examen/certification-of-teachers-with-a-foreign-diploma>
