### Why Join ProjectBinder?

At ProjectBinder, we help customers improve the quality and efficiency of their manufacturing processes through cutting-edge IT and automation solutions. Since 2017, we have successfully delivered on our promise, and our team now consists of more than 100 colleagues from 20 nationalities across our offices in Denmark, Spain, Germany and Ireland.

We work in an international and innovative environment where collaboration and professional development are at the core of everything we do. ProjectBinder has become part of the INIT Group, joining forces with 700 colleagues from 8 companies specializing in Industrial IT and automation services.

ProjectBinder is looking for a new colleague with experience in OT security. You will become a key player in an ambitious team, where you'll have opportunities for growth and get to work with exciting clients in the pharmaceutical, energy, and manufacturing sectors.

### What you will do

As an OT Security Advisor at ProjectBinder, you'll work with clients across various industries, including pharmaceuticals and manufacturing. You'll be responsible for designing, planning, and ensuring IT/OT security for ProjectBinder's clients. You are expected to have experience with OT security on both an operational and strategic level.

### What you bring

You thrive in a role with a broad range of contacts, both inside and outside the company. You approach your tasks in a structured way and strive to deliver high-quality work with attention to detail. You are comfortable making decisions—even the tough ones. Your colleagues will always be ready to support you, and the same is expected from you. Strong collaboration skills are essential.

This project is funded by

You have experience in an advisory or consultancy role or something similar. You possess strong communication skills and can serve as a link between IT and OT. Experience from regulated industries is a plus, but not a requirement.

We imagine you recognise yourself in one or more of the following:

- Education in Computer Science, Engineering, or another relevant field.
- One or more of the following certifications: CISM, GICSP, or ISA/IEC 62443 Cybersecurity.
- Experience with cybersecurity risk management.
- Experience with security assessment tools.
- Professional-level English.

Additionally, it is an advantage if you have experience in the following areas:

- Developing and implementing OT cybersecurity strategies.
- Performing risk analyses and advising on existing environments.
- Leading and supporting new projects.
- Developing and drafting cybersecurity requirements for clients and stakeholders.
- Evaluating and assessing OT infrastructure and architecture.

You will be part of a newly established department and work closely with colleagues specialising in IT/OT infrastructure. The role requires you to work independently and be part of an interdisciplinary team. Therefore, it's a plus if you listen well, are eager to learn and share knowledge, and are driven to deliver high-quality work.

### What is in it for you

You will receive a salary based on experience and qualifications. In addition, ProjectBinder offers:

- Bonus scheme.
- Health insurance.
- Opportunities for personal and professional development.
- A workplace that values work-life balance.
- Opportunities to work with the latest technologies within IT and OT in manufacturing companies.

You will be offered relevant training and courses and the opportunity to attend conferences and similar events.

We encourage you to apply even if you do not meet every requirement—you may have other transferable qualifications. We are conducting interviews on an ongoing basis and reserve the right to close the recruitment process once the right candidate is found. The start date is as soon as possible.

### To apply please contact:

If you want to know more, please contact Søren Olsen Via e-mail: [soren.olsen@projectbinder.eu](mailto:soren.olsen@projectbinder.eu)

Applications from potential future colleagues will be reviewed continuously, so please do not hesitate to apply.

Application deadline: 11 July 2025

Date of employment: As soon as possible
