

Blacksmith/Welder

Damgaard Metal is currently seeking a skilled blacksmith/Welder for our blacksmith department.

As a modern machine factory employing approximately 80 individuals across two locations in Denmark, Damgaard Metal specializes in supplying welded and machined constructions to a variety of industries. We pride ourselves on fostering a positive work environment with a team of dedicated and proficient employees.

Job Responsibilities:

Given our focus on handling small to medium-sized orders, the tasks for this position will be diverse and include:

- Proficient welding using TIG and MIG/MAG techniques.
- Construction and assembly of steel structures.
- Welding on various materials including black steel and potentially stainless steel.

To be successful in this role, you should possess:

- Formal training as a blacksmith/metalworker/welder.
- Demonstrated experience in welding black steel and preferably stainless steel.
- Ability to interpret and work from construction drawings.
- Valid welding certifications or a willingness to obtain them.

Personal Attributes:

Our ideal candidate will seamlessly integrate into our cohesive team of skilled and unskilled workers. Key personal attributes include:

- Punctuality and reliability in attendance.
- Methodical and systematic work approach.
- Attention to detail and a commitment to quality.
- Flexibility in handling various tasks.
- Proficiency in English or German communication skills.

We Offer:

In return for your skills and dedication, we provide:

- Diverse job responsibilities offering professional growth opportunities.
- Supportive colleagues and a positive work environment.
- Relevant training to enhance your skills.
- Competitive compensation based on qualifications, including health insurance coverage.

This job is located in our factory in Vojens.

Please know that only applicants **with EU citizenship** are taken into consideration for the current positions.
