

Aviation CASTILLA Y LEON WORKING GROUP CLEANSKY INFODAY

SCHEDULE:

Date: 26-27 March 2019

Address: Parque Tecnológico de Boecillo (Valladolid)

The event coincides with the presentation of the CLEANSKY program. Clean Sky is the largest European research program that develops innovative and cutting-edge technology aimed at reducing CO₂, gas emissions and noise levels produced by aircraft. Funded by the EU's Horizon 2020 program, Clean Sky contributes to the strengthening of European aeronautical collaboration, global leadership and competitiveness.

During the afternoon of the 26th, it is possible to have B2B meetings with the speakers of the different demonstrators and you can speak personally with them about your interests in the Call. Once registered, we will send you a doodle where you will be able to schedule your meeting if you are interested.

Horizon 2020
European Union Funding
for Research & Innovation
