

Vacancy

Head of the Radioactive Waste Management Group

Yours Tasks

The Radioactive Waste Management Group, comprising a head of group, an engineer and four technicians, is responsible for the collection, treatment and conditioning of nuclear waste on the ILL site. You will report to the Head of the Health Physics, Safety and Environment Service and will have the following duties:

- Managing the five-person team (annual leave schedule, annual interviews, organising and supervising work, liaising with other ILL services, leading weekly meetings, developing the team's skills set, etc.)
- Liaising with the waste management agencies ANDRA and CYCLIFE/CENTRACO to monitor contracts, documentation and specific requests, planning of shipments, etc.
- Acting as technical controller for waste management operations and maintaining the waste study (étude déchets) and the general operating rule relating to waste
- Managing the waste management process: research into waste disposal routes and outlets, application of the Integrated Management System (IMS), monitoring of developments to keep documentation up to date, participation in audits, sample audits and process reviews, drafting of waste reports, etc.
- Providing forecasts for waste production/shipping and managing the associated budget
- Participating in emergency response exercises
- Ensuring that inventories are up to date, monitoring stocks, ordering packaging, etc.

In addition to your duties, you will also act as a point of contact for the nuclear operator for questions regarding radioactive waste, as well as for ensuring compliance with waste treatment requirements in the ILL's buildings and work areas.

Qualifications / Experience:

- Level 7 qualification (Master's degree or equivalent) plus at least 5 years of experience in a similar post, including team management experience
- Expertise in nuclear metrology is required
- Excellent writing skills in French, basic knowledge of English
- Knowledge of Basic Nuclear Installations (INB - Installation Nucléaire de Base) and the INB ministerial decree (arrêté INB)
- You must be independent, methodical and meticulous in your work, with strong team player skills.

We offer:

- **Quality of life** A hub for research and technology, the city of Grenoble is ideally located in the heart of the French Alps (just 3 hours from Paris/Provence by train, 1 hour from Lyon international airport and 1 ½ hours from Geneva). It is important for us that our staff achieve a healthy work-life balance. We therefore offer home working (under certain conditions), generous annual paid leave entitlement and a host of other benefits that you will discover when you arrive!

Prospects We guarantee you a secure permanent position in a multicultural scientific environment

- **Benefits** We offer generous social benefits (expatriation allowance, excellent health cover), moving and relocation assistance (under certain conditions) and an annual productivity bonus. We also offer language courses for you and your partner and subsidies for the use of public transport and the staff canteen, as well as for holidays and a variety of cultural and sports activities.

How to apply:
