

## Industrial surface treatment (metal), painter (3 posts)

We are currently looking for industrial painters to join our client's team in the **Kainuu region, Finland**. Elements of mining machines and large elements of railway vehicles are painted. Work is also performed at a height of up to 7 m, so readiness to work at height and with a ladder is required. The work involves precise high-pressure spray painting in accordance with the instructions. Each employee is thoroughly introduced to environmental, quality, technical and occupational health and safety requirements.

### We require:

- At least 2 years of experience working on similar tasks. All stages of work are performed manually.
  - Readiness to work at heights (up to 7m)
  - We expect the ability to work in a team, punctuality, the ability to read technical drawings, readiness and experience in sandblasting.
  - Knowledge of Finnish and/or English and/or Russian is required for this job position.
- The work uses Teknos paints, so experience with this brand of paints will be an advantage.
- Advantage if you already have DI isocyanate certificate for level 3. Otherwise, training should be done in beginning of employment relationship (not on work time, training will be free for participant)

### Offer:

- The **contract** is drawn up for **an indefinite period** and is consistent with the collective agreement of the technology industry.
- **Starting salary** from €14.60/h (the company uses hourly and performance rates, in commission average earnings 16-17€/h).
- **Full-time work** in a 2-shift system (readiness to work 3 shifts will be an additional advantage).
- **Start work as soon as possible. The positions will be filled as soon as suitable candidates are found.**
