

The ZAV-International Service, a department of the Federal Employment Agency in cooperation with EURES, recruits and supports employees from abroad interested in taking up employment in Germany.

For a company near Hamburg we are looking for motivated and flexible

Electronics Technicians for Energy and Building Technology and

Electricians for installation on new buildings

The company has been active for more than 25 years and relies on the latest technology and innovative ideas in electrical engineering. As a certified specialist company with 40 employees, it offers E-MOBILITY for the right installation and provides the appropriate infrastructure.

Place of work: Geesthacht/ Hamburg area

Your new tasks:

- o Independent processing of work orders in the field of electrical installation of switching and distribution equipment, circuit distributors, connection of devices and safety and data technology.
- o Cable laying work for high and low voltage current according to installation and circuit diagrams
- o Preparation of measurement and billing bases
- o Preparation of measurement and test protocols of the electrical installations and devices
- o Troubleshooting and corresponding maintenance and repair work

Your profile:

- o Completed training as an electronics technician for energy and building technology m/f/d, electrical installer m/f/d or comparable training.
- o Ideally, first professional experience in the described area of responsibility
- o Knowledge in the areas of installation technology, control and communications technology as well as network technology desirable
- o Valid driving licence class B or BE
- o Sense of responsibility and resources as well as a good sense of humour

And this is what we offer you:

- o Mobile phone, laptop and company cars for private use
- o Individual qualification and further training opportunities
- o Christmas bonus, performance bonuses and bonuses for improvement suggestions
- o Hourly wages start at: 12,90 €.
- o Employer allowance for old-age provision

The company:

- offers assistance in dealing with authorities
- rents apartments for assemblers 5 minutes away from the company
- has experience in the integration of different nationalities

(the following languages are currently represented: Spanish, English, Polish and Russian)

- cooperates with the Federal Employment Agency and ZAV
