

Vacancy

Mechanical design technician

Your Tasks

1. Mechanical design:
 - Carry out technical feasibility studies.
 - Design mechanical parts and systems using CAD software (SolidWorks, AutoCAD, etc.).
 - Choose the right technical solutions.
 - Prepare drawings, diagrams and full sets of documentation.
2. Project management:
 - Assist with the drafting of technical specifications.
 - Monitor the manufacturing and assembly phases in collaboration with the subcontractors and ILL services concerned.
 - Organise and monitor work sites.
3. Coordination and communication:
 - Work with other ILL services to ensure the seamless integration of mechanical systems.
4. Technology watch:
 - Keep up to date with technological developments in the field of mechanical engineering.
 - Propose innovative solutions and contribute to the continuous improvement of the service.

Qualifications / Experience:

- You have a Level 4/5 qualification (BTEC HNC/HND or equivalent) in mechanical or production engineering, industrial product design or a related field.
- You have at least 5 years' experience of performing mechanical design work in a design office (ideally in a research environment).
- Experience in project management would be appreciated.
- You are proficient in using CAD software and reading industrial drawings.
- You have knowledge of the relevant regulations and standards.
- You are meticulous, independent and adaptable, and you possess strong analytical skills.
- You have excellent interpersonal skills and a keen sense of team spirit.
- You are fluent in French and have a good knowledge of technical English.

We offer:

- ✓ **Quality of life** A hub for research and technology, the city of Grenoble is ideally located in the heart of the French Alps (just 3 hours from Paris/Provence by train, 1 hour from Lyon international airport and 1 ½ hours from Geneva). It is important for us that our staff achieve a healthy work-life balance. We therefore offer home working (under certain conditions), generous annual paid leave entitlement and a host of other benefits that you will discover when you arrive!
- ✓ **Prospects** We guarantee you a **permanente contract** in a multicultural scientific environment.
 - ✓ **Benefits** - We offer generous social benefits (expatriation allowance, excellent health cover), moving and relocation assistance (under certain conditions) and an annual productivity bonus. We also offer language courses for you and your partner and subsidies for the use of public transport and the staff canteen, as well as for holidays and a variety of cultural and sports activities. For more details, visit <https://www.ill.eu/careers/working-at-the-ill/employment-conditions>.

How to apply:

https://www.ill-recruits.eu/module.php?module=applicant_register_cv_analyzer/applicant_register_cv_upload&sid=2187

Then why not take your next career step with us by applying online – preferably in English – via our career portal by **26/04/2026**, quoting reference number **26/17**. Please note that all applicants are subject to administrative screening (background checks). For this post, medical fitness (including for work under ionising radiation) is required. We are committed to equal opportunities and diversity and therefore welcome applications from all suitably qualified candidates.
