

## Vacancy

# Occupational Health Nurse

### Yours Tasks

Your main responsibilities will be to:

- Provide routine and emergency medical care
- Update staff medical records in the occupational health service software
- Prepare medical check-ups, perform additional examinations (including toxicological and radio-toxicological examinations) and follow-up medical records
- Perform mandatory medical check-ups for new hires (known as "visites d'information et de prévention")
- Act as the first point of contact for staff and visitors, provide advice on healthcare matters and perform vaccinations
- Manage medical equipment supplies and stocks of medicines
- Schedule regular medical check-ups for staff
- Record occupational accidents and incidents in the SMTTC register
- Put in place risk prevention measures and raise awareness of occupational hazards
- Carry out workstation assessments
- Take part in meetings of the CSSCT (Workplace Health and Safety Commission) and other committees
- Provide statistical data for statutory documents.

### Qualifications / Experience:

- You have a French "Diplôme d'Etat d'Infirmier ière" (DEI) (or equivalent diploma) allowing you to work as a nurse in France. You have at least five years' experience, preferably in a hospital environment (accident and emergency, intensive care, etc.)
- You hold a French "Diplôme d'Infirmier-ière en Santé au Travail" (DIUST) (specialist qualification in occupational health) or are prepared to undertake this qualification.
- If you are not already a workplace first-aid trainer, ILL will help you complete this training.
- You have sound knowledge in the area of occupational health and ensure that you keep your skills up to date through continuous professional development (CPD).
- You are proficient in the use of office software (Word, Excel, email) and are able to adapt quickly to new software.
- You are able to manage emergencies, prioritise tasks and report effectively.
- You are familiar with the risks associated with working under ionising radiation.
- You have an excellent command of spoken and written French and English. Knowledge of German would be an advantage.

## We offer:

- ✓ **Quality of life** A hub for research and technology, the city of Grenoble is ideally located in the heart of the French Alps (just 3 hours from Paris/Provence by train, 1 hour from Lyon international airport and 1 ½ hours from Geneva). It is important for us that our staff achieve a healthy work-life balance. We therefore offer home working (under certain conditions), generous annual paid leave entitlement and a host of other benefits that you will discover when you arrive!
- ✓ **Prospects** We guarantee you a **secure permanent position** in a multicultural scientific environment.
- ✓ **Benefits** - We offer generous social benefits (expatriation allowance, excellent health cover), moving and relocation assistance (under certain conditions) and an annual productivity bonus. We also offer language courses for you and your partner and subsidies for the use of public transport and the staff canteen, as well as for holidays and a variety of cultural and sports activities.
