

Installations & Maintenance Technician

Number of Posts: 1

Contract Type: Full time Job description:

The AquaBioTech Group is seeking to employ an Installations & Maintenance Technician to conduct general installation and maintenance work at its own facility in Malta.

NOTE: All applicants must have an EU/EEA/UK passport OR be a third-country national (TCN) presently residing in the EU with the required permits and have an excellent command of the English language, written and spoken.

Synopsis of position offered

The successful candidate will be part of the team responsible for the general installation and maintenance of the company's facilities, covering labs, stores and offices as well as assist the different departments with a variety of tasks. These responsibilities may include, but are not limited to:

- Working within the maintenance and installations team, completing daily/routine tasks
- Maintenance, repair and installation of electrical and plumbing equipment
- Equipment maintenance, repair and installation, including water pumps, filtration equipment, water heating and cooling equipment, ventilation, water dosing equipment and monitoring systems
- Maintenance of Quality Assurance documentation, and an ability to plan preventative maintenance tasks
- Contributing to continuous improvement efforts in the installation and maintenance function by reviewing procedures and implementing sustained process improvements.
- Installation work that may be needed in the Company's projects abroad.

Requirements

- Reporting directly to the Head, Site Installations & Commissioning, the position is demanding, requiring a person who is highly motivated, self-organised, possesses a high level of integrity and discipline with a strong work ethic and able to establish and maintain effective working relationships with the rest of the team.
- The selected person must be prepared to work to very tight deadlines in isolated and multi-functional projects and in conjunction with a team of international staff based at our head-office in Malta, as well as staff who are working at our foreign project sites.

Qualifications Overview

- The successful candidate must have a solid background in maintenance, installation work or any other similar position.
- An electrical wiring licence B, and a track record of experience of successfully working with electrical, mechanical and plumbing equipment is a requirement.

- The selected candidate will have to speak and write English fluently. Knowledge of any other languages would be considered an asset, although not essential.
- The selected candidate must have a clear passport with no travel restrictions, no legal convictions held at any time and be in possession of a clean driving licence.
- The selected candidate should be ready and willing to go abroad on installation projects for extended period of times.

Training provided : Successful candidates will go through our internal onboarding procedure, whereas all information and documentation will be provided before start date, for information and signing.

Any assistance with accommodation/relocation : AquaBioTech Group offers all employees company accommodation, which comes at cheaper rates compared to personal renting, and which will be available immediately for new employees to use upon their arrival. All preparation related to accommodation is handled by the company.

Any other benefits We offer access to a gym, weekly team events, and breakfast on Monday mornings. Additionally, we have a very flexible leave policy to accommodate our employees' needs.

Salary €18,000 to €24,000 per year.

To apply:
