

## Vacancy

# Electrician

The Institut Laue-Langevin (ILL), situated in Grenoble, France, is Europe's leading research facility for fundamental research using neutrons. The ILL operates the brightest neutron source in the world and hosts over 2000 visits by scientists per year, who come to carry out world-class research. Come and join the three-person team of electricians in the ILL's Building and Site Maintenance Service, part of the Projects and Techniques Division, which is responsible for providing and developing the building and site maintenance services to meet the requirements for a first-class institution for scientific research.

### Yours Tasks

- Install and commission electrical equipment, using assembly drawings and diagrams, in accordance with safety regulations and industry best practice
- Install and connect wires/cables, equipment and cable trays
- Connect wires/cables to the electrical panels for the installations (distribution board, general low-voltage switchboard, control panel, etc.)
- Perform all or part of commissioning for low and high-voltage equipment
- Perform new work as well as alterations, upgrades, extensions and modifications to ensure installation compliance in the event of changes to regulations
- Perform maintenance and troubleshooting of electrical equipment, where necessary.

### Qualifications / Experience:

- You have a Level 3 qualification (NVQ, City & Guilds, apprenticeship or equivalent) in electrical installations.
- Professional experience as an industrial electrician is desirable (5 or more years). Motivated candidates with less experience will also be considered.
- You have good organisational skills and are able to work quickly. You are an excellent team player with an ability to use your own initiative.
- You are punctual, reliable and are able to work to schedule and respect working hours.

## We offer:

- ✓ **Quality of life** A hub for research and technology, the city of Grenoble is ideally located in the heart of the French Alps (just 3 hours from Paris/Provence by train, 1 hour from Lyon international airport and 1 ½ hours from Geneva). It is important for us that our staff achieve a healthy work-life balance. We therefore offer home working (under certain conditions), generous annual paid leave entitlement and a host of other benefits that you will discover when you arrive!
- ✓ **Prospects** We guarantee you a secure a **indefinite contract** in a multicultural scientific environment.
- ✓ **Benefits** - We offer generous social benefits (expatriation allowance, excellent health cover), moving and relocation assistance (under certain conditions) and an annual productivity bonus. We also offer language courses for you and your partner and subsidies for the use of public transport and the staff canteen, as well as for holidays and a variety of cultural and sports activities For more information, please visit <https://www.ill.eu/careers/working-at-the-ill/employment-conditions>.

## How to apply:

[https://www.ill-recruits.eu/module.php?module=applicant\\_register\\_cv\\_analyzer/applicant\\_register\\_cv\\_upload&sid=2061](https://www.ill-recruits.eu/module.php?module=applicant_register_cv_analyzer/applicant_register_cv_upload&sid=2061)

Then why not take your next career step with us by applying online - preferably in English - via our career portal by **14.09.2025**, quoting reference number **25/50**. Please note that all applicants are subject to administrative screening (background checks). For this post, medical fitness (including for work under ionising radiation) is required. We are committed to equal opportunities and diversity and therefore welcome applications from all suitably qualified candidates.

Please note that the interviews will take place **the week of 13 October**.
