

Fertility Doctor

Sellmer Klinik Aarhus ApS

Fertility doctor to a Danish clinic

About the position

As part of our highly committed multidisciplinary team, you will share responsibility for our daily communication with patients by email, telephone and Teams, as well as for consultations and treatments at the clinic.

Only EU citizens will be considered for the position!

At Sellmer Klinik, the path from idea to implementation is short, and we place both our patients and a positive working environment at the heart of everything we do.

We are looking for a fertility specialist to join our team of two doctors who work together to assess and treat patients experiencing infertility. In addition to weekday work, the position includes daytime shifts on Saturdays, Sundays and public holidays.

You will become part of a dynamic clinic driven by passionate and dedicated employees. We are a straightforward and informal workplace, guided by the principle of "freedom with responsibility".

Sellmer Klinik was established in 2009 and has a clinic in Aarhus. We are open seven days a week, all year round. To make this possible, we work closely across professional disciplines. The atmosphere is informal, and we always support one another in completing our tasks. We currently have six permanent employees who, together, cover all functions within the clinic and bring a wide range of professional skills and experience.

As an employee at Sellmer Klinik, you will have the opportunity to shape your own role and responsibilities. If you have a good idea, we are always ready to listen.
