The positions

Due to the expansion of our activities in all business areas and sites, we are currently looking for Associate Managers for many different teams across Novo Nordisk.

Some examples of teams are provided below, but the opportunities are not limited to these.

As an **Associate Manager for a Production team**, you will be leading a team of operators, skilled workers, technicians and/or craftsmen. You will be responsible for setting direction for the team and also delivering a stable production according to the schedule while having an eye for optimizing the workflow.

As an **Associate Manager for a Production Support team**, you will be leading a team of process supporters with diverse technical and academic backgrounds. Your responsibility will be to ensure excellent support for our operation. This support can take many forms but mostly involves technical, automation and process guidance during batch execution, following up on recent issues and trends, driving systematic problem solving and executing small to medium-sized improvement projects.

As an **Associate Manager for an IT, Automation and Robotics team** you will be responsible for various tasks related to ongoing projects, optimization of our production, compliance, and strategic initiatives. Some of the tasks may also include implementing new products, equipment, and processes. By utilizing the capabilities and skills in your team, you will ensure that Novo Nordisk secures the benefits of modern tech and stays at the forefront of manufacturing technology.

As an **Associate Manager for a Quality Assurance or Quality Control team** you will be leading skilled professionals and QA/QC specialists. Our QA teams are responsible for a wide range of quality assurance activities, ranging from handling deviations, change requests and validation to quality support and optimization projects.

While our QC teams perform various chemical, microbiological, and biochemical analyses of our productions. As an Associate Manager for QA or QC you will set direction and drive our mission to safeguard patients, and product quality and to ensure compliance with external requirements.

As an **Associate Manager for a Business Support Team**, you will head up a team of specialists and professionals within areas as supply chain, finance and training. These are positions with broad impact and involve extensive stakeholder management at different levels within the organization ensuring the best support.

Qualifications

To succeed as an Associate Manager, you have great interpersonal skills complimented by an interest in leadership or people management experience. Furthermore:

- A relevant educational background
- Experience within the following: setting direction, engaging others, prioritization according to strategic aspirations and/or stakeholder management
- You are fluent in Danish or English

It is considered an advantage to have:

- Pharma experience
- A broad and well-proven leadership toolbox
- Lean experience
- GMP knowledge

Furthermore, all Associate Managers role model our behavioural goals. You will be expected to demonstrate inclusive leadership by valuing and listening actively to diverse perspectives while keeping a strategic overview ensuring collaboration across business functions.

Additionally, we are a sustainable employer encouraging and supporting decisions and behaviours that have a positive financial, environmental, and social impact. As a leader, you ensure the well-being and development of our employees while optimizing and preparing our processes for the future.
