

Process Scientist and Process Engineer Pipeline - Kalundborg

Job description

Are you looking for a life-changing career within Pharmaceutical Manufacturing? Novo Nordisk is a global healthcare company employing 47,000 employees worldwide. At our Manufacturing Hub in Kalundborg, Denmark, we are hiring **Process Scientist and Process Engineer** graduates.

Are you recently graduated or someone working in the industry with focus on or interest in data analysis, process systems and, descriptive and prescriptive analytics? Are you interested in understanding pharmaceutical processes, developing monitoring tools and analyzing data for recommendation for improvements? Are you interested in business impact and understanding how interconnected decisions play a crucial role when manufacturing pharmaceuticals? Then you can be one of our Process Scientists or Process Engineers at our Manufacturing Hub in Kalundborg, Denmark.

Qualifications for Process Scientists:

Process Scientist candidates should have the following or developing qualifications:

- An MSc in Chemistry, Biochemistry, Protein Chemistry, Biophysical Chemistry or (Bio-) Analytical chemistry
- Ability to independently understand scientific principles required for manufacturing pharmaceutical substances related to the interaction of chemistry and equipment
- Ability to monitor data and extract information
- An appetite for connecting the understanding of process science to product quality

Qualifications for Process Engineers

Process Engineer candidates should have the following or developing qualifications:

- An MSc in chemical, industrial or mechanical engineering (or a BSc with some professional experience)
- Ability to analyze data and independently extract information
- An appetite for solving complex problems applying a systems approach to manage complexity and reach feasible applicable solution

For both Process Engineers and Process Scientists it is key that you understand how to convey complex information to varying audiences and thereby, explain the purpose to get everyone onboard. In addition, you should have proficient oral and written communications skills in English.

How to apply:

This is your opportunity to be part of our exciting journey and help establish the future factories of Novo Nordisk. The new facilities include state-of-the-art production technologies, which will be bridged with our more than 50 years of experience in biomanufacturing. We also have many interesting career opportunities in our existing facilities. Go to www.novonordisk.com/Kalundborg to learn more.

Please, register yourself in our applicants database and apply for the job: <https://bit.ly/3L3l3O8>. Por favor, comunícanos si has llevado a cabo tu solicitud a eures.nordicos@sepe.es, para poder hacer seguimiento de tu solicitud con nuestros colegas en EURES Dinamarca.

Deadline:

Applications will be reviewed on an ongoing basis, and you are encouraged to apply **as soon as possible**. To ensure an efficient and fair recruitment process, **please refrain from adding a photo in your CV**.
