

Specialist Doctor in Psychiatry, North Denmark Region

Aalborg Universitetshospital Syd

Aalborg Universitetshospital

Become part of a multidisciplinary psychiatry service where collaboration and professional development are at the centre of patient care. North Denmark Region is looking for specialist doctors in psychiatry to join our adult psychiatry services, primarily based in Brønderslev.

You will work in a professionally ambitious environment with strong opportunities for both professional and personal development.

Why join us?

- Multidisciplinary collaboration with psychiatrists, nurses, social workers, physiotherapists and occupational therapists.
- Strong focus on supervision, collegial support and continuous learning.
- The opportunity to contribute to the continued development of mental healthcare in a region with a need for specialist expertise.

Working and Living in North Denmark

Positions are primarily based in Brønderslev. North Denmark offers excellent opportunities for a balanced professional and personal life, with easy access to nature, the city of Aalborg and Aalborg Airport with connections to several European destinations.

Danish working culture supports collaboration, professional autonomy and a healthy work-life balance.

International Candidates

Many of our psychiatrists have an international background. Danish is the working and clinical language and is essential for patient care. Support with authorization, language training and relocation is provided through our recruitment partners.

What We Offer

- Exciting opportunities for professional and personal development.
- A supportive learning environment with a strong supervision culture.
- A collaborative workplace where quality of care and professional growth go hand in hand.
- The chance to build a meaningful career in one of Denmark's leading psychiatric services.
- Permanent employment
