Vacancy

Are you a passionate developer who would love to work in a city surrounded by mountains? Then look no further. We have the career opportunity you've been looking for:

Come and join the (7-person) Development team in the IT Service of the Institut Laue-Langevin (ILL) and help us develop our in-house tools. You will have the chance to work on innovative projects using the latest technologies. We can't wait to unlock your potential and help you develop your skills.

Full stack developer

Yours Tasks

As a key member of the team, you will have the opportunity to:

- Take an active part in the design and development of applications, tools and software using Java, NodeJS, Typescript and Angular.
- Take ownership of the entire development lifecycle from the first line of code pushed to Gitlab or Github to the production deployment on a Docker/Kubernetes infrastructure.
- Contribute to problem-solving and the continuous improvement of our applications, paying particular attention to the user experience and ergonomics.
- Collaborate with the development team in producing effective documentation and optimising deployment to production via the CI/CD cycle.
- Participate in open source projects, sometimes on a European scale, in collaboration with other research institutes outside France to make your contribution to the world of research

Qualifications / Experience:

- A passion for coding and a drive to learn new technologies.
- An active Github, Gitlab or Bitbucket profile with contributions to collaborative or personal projects.
- A Level 6 qualification (Bachelor's degree or equivalent) in computer science or equivalent professional experience.
- A good command of written and spoken English.
- A strong commitment to user service and quality.
- You are a creative self-starter and are eager to share new technology with your team on a regular basis.

We offer:

- ✓ **Quality of life** A hub for research and technology, the city of Grenoble is ideally located in the heart of the French Alps (just 3 hours from Paris/Provence by train, 1 hour from Lyon international airport and 1 ½ hours from Geneva). It is important for us that our staff achieve a healthy work-life balance. We therefore offer home working (under certain conditions), generous annual paid leave entitlement and a host of other benefits that you will discover when you arrive!
- ✓ **Prospects -Indefinite-term contract** position in a multicultural scientific environment.
- ✓ **Benefits** - We offer generous social benefits (expatriation allowance, excellent health cover), moving and relocation assistance (under certain conditions) and an annual productivity bonus. We also offer language courses for you and your partner and subsidies for the use of public transport and the staff canteen, as well as for holidays and a variety of cultural and sports activities.

How to apply:

Please submit your application on line no later 19/02/2023, via our website :
