

## Vacancy

ILL, a world leader in neutron science and technologies, is hiring a coordinator for European projects. You will be part of the Partnerships and Communication Service (PACS). Your mission is to significantly increase the number and quality of proposals led by and involving ILL in the coming years. In particular, the ILL is looking to expand its portfolio of European projects mainly from Horizon Europe's Pillar One (infrastructure, Marie Skłodowska-Curie Actions, etc.) to science-focused projects in Pillar Two, leveraging exciting new scientific opportunities after a comprehensive facility upgrade and helping to deliver an ambitious scientific strategy at ILL. This role complements an existing position focused on project coordination and reporting

### European Projects Officer

#### Your tasks:

- Lobbying at national, European and Commission levels to create future calls tailored to the needs of the ILL
- Monitoring current and future work programmes to identify the most suitable and promising calls to which to respond
- Networking with organisations in Europe (e.g. LENS, LEAPS, EIROforum, etc.) to establish a range of partners and contacts as potential consortium members in proposals and projects
- Coordinating submission of proposals
- Contributing to creation of proposals and supporting ILL staff in proposal writing, including creation of supporting graphics, budget construction, etc.
- Writing more generic parts of proposals (e.g. impact and implementation)
- Coordinating accepted proposals as part of the European Office team

#### Your profile:

- Higher university degree in a scientific or technical domain or project management (or equivalent)
- Recent and significant experience, including a strong track record, in preparation and submission of national and preferably EU proposals
- In-depth knowledge of European Commission methodology and terminology
- Excellent communication skills for lobbying and networking
- Excellent written communication and editing skills in English
- Experience in an international research environment would be appreciated
- Experience in project management.

## **We offer:**

**Quality of life** - A hub for research and technology, the city of Grenoble is ideally located in the heart of the French Alps (just 3 hours from Paris/Provence by train, 1 hour from Lyon international airport and 1 ½ hours from Geneva). It is important for us that our staff achieve a healthy work-life balance. We therefore offer home working (under certain conditions), generous annual paid leave entitlement and a host of other benefits that you will discover when you arrive!

**Prospects** - We guarantee you a **stable 3-year fixed-term position** in a multicultural scientific environment.

**Benefits** - We offer generous social benefits (expatriation allowance, excellent health cover), moving and relocation assistance (under certain conditions) and an annual productivity bonus. We also offer language courses for you and your partner and subsidies for the use of public transport and the staff canteen, as well as for holidays and a variety of cultural and sports activities.

## **How to apply:**

**Please submit your application on line no later 29/10/2023, via our website, (vacancy reference: 23/38). Applying online - preferably in English**

**[www.ill.eu/careers](http://www.ill.eu/careers)**

Please note that all applicants are subject to administrative screening (background checks). For this post, medical fitness (including for work under ionising radiation) is required. You will also have to perform an emergency response role in the event of a major crisis.
