

## Quality Assurance Automation Engineer

Number of Posts: 1

Contract Type: indefinite

### Job description:

Croftz is the fastest-growing RegTech firm in Europe and the UK building the most innovative compliance, risk and reporting platform and providing other KYC / due diligence solutions.

We are looking for high-calibre and talented Automation tester to join our Software Development team . The candidates will be required to demonstrate their expertise and ability to automate UI, API and other test suite required for maximum code coverage.

### Responsibilities:

- ✓ Contribute to Test Automation creation based on existing solution (JavaScript, ejs, node.js, postgres)
- ✓ Explore existing solution and introduce improvements
- ✓ Closely cooperate with joint Test Automation teams from customers' and 3rd party vendor side
- ✓ Work with stakeholders to align with prioritization and strategic approaches
- ✓ Test Automation Framework development and maintenance
- ✓ Port over existing tests to new solution and restructuring them
- ✓ Build stable integration test package
- ✓ Fill in gaps in test coverage and add new scenarios
- ✓ Work closely with the Development team to deliver the tasks in time and with the expected quality
- ✓ Bring ideas regarding test / code design
- ✓ Enable test over CI/CD pipelines

### Requirements:

#### Personal Requirements:

- Minimum experience in Automation Testing 5- 9 years.
- Relevant experience in JavaScript should be minimum 2.5 to 3 years.
- Hands on experience on Protractor or Mocha or Chai or Jest or Puppeteer or Cypress
- Should have experience on JavaScript, Typescript, UI Automation, Web driver I/O.
- Hands on experience on API Automation, Test Strategy, Writing test cases and on Test Automation framework

#### Experience Requirement:

- 3-4 years Protractor or Mocha or Chai or Jest or Puppeteer or Cypress
- 5 Years – JavaScript
- 3-5 Years - UI automation
- 3-5 Years Web driver I/O
- 3-5 years API testing

#### Qualifications Requirement:

Minimum Bachelor's degree in Computer Science, Software Engineering, Programming, or equivalent qualification in computer science.

Other: Application received from candidate based in Malta or EU/EEA would be preferred and who can join immediately or willing to relocate to Malta from EU/EEA without any work permit sponsorship

Training provided: On the job and periodic based on skill requirement

#### Any assistance with accommodation/relocation:

- Relocation support for candidates based in EU/EEA who do not require a work permit in Malta
- Work permit sponsorship for non-EU candidates currently based in Malta physically

Salary: Eur 50.000 per year

#### How will the interviews be held:

- Selected candidates will go through initial screening / interview
- Shortlisted candidates will go through a technical assessment and final interview followed by a final decision and offer.

#### To apply:

Please send Letter + CV in English by email to [eures.recruitment.jobsplus@gov.mt](mailto:eures.recruitment.jobsplus@gov.mt) copia a [pcpmixto.eures@sepe.es](mailto:pcpmixto.eures@sepe.es) quoting the name of the vacancy **Quality Assurance** and the vacancy reference **404874** in the covering email.

Applicants must be Maltese/EU Nationals/other nationals who are entitled to equal treatment as EU Nationals with regards to employment (such as family members of EU Nationals) due to EU legislation & treaty rights regarding the free movement of workers.
