

Vacancy

Physical measurements & Instrumentation Technician

Yours Tasks

Following a period of induction and training, you will work as part of a team of around fifteen people, primarily in the laboratory and the experimental areas. You will have the following duties:

- Support colleagues and visiting scientists in order to ensure the smooth running of the experimental programmes
- Maintain, troubleshoot, repair and configure cryogenic equipment
- Draft and maintain technical documentation and occasionally conduct internal training sessions
- Contribute to the development of new sample environments
- Work with your team to troubleshoot and resolve technical issues.

Qualifications / Experience:

- You have a Level 4 or Level 5 qualification (HNC/HND, foundation degree or equivalent) in physical measurements and/or instrumentation.
- You are interested in the field of scientific instrumentation and would like to learn how to develop and use complex measuring instruments.
- You have a basic knowledge of mechanical engineering and are keen to develop skills, for example, in TIG welding, brazing, industrial drawing, etc.
- Knowledge or experience in cryogenics and vacuum technology would be an advantage.
- You are an enthusiastic team player with good organisational skills and a service-oriented attitude.
- You are a good listener and have excellent interpersonal skills.
- You have at least an intermediate level of English, in particular spoken English.

We offer:

- ✓ **Quality of life** A hub for research and technology, the city of Grenoble is ideally located in the heart of the French Alps (just 3 hours from Paris/Provence by train, 1 hour from Lyon international airport and 1 ½ hours from Geneva). It is important for us that our staff achieve a healthy work-life balance. We therefore offer home working (under certain conditions), generous annual paid leave entitlement and a host of other benefits that you will discover when you arrive!
- ✓ **Prospects** We guarantee you a **indefinite-term contract** in a multicultural scientific environment.
- ✓ **Benefits** - We offer generous social benefits (expatriation allowance, excellent health cover), moving and relocation assistance (under certain conditions) and an annual productivity bonus. We also offer language courses for you and your partner and subsidies for the use of public transport and the staff canteen, as well as for holidays and a variety of cultural and sports activities.
