

20 Electrical Helpers for Locomotive Assembly at Siemens Mobility GmbH (Germany)

Have you considered working abroad?

Randstad Germany is pleased to offer a well-paid and sustainable position as an **Electrical helper for Locomotive Assembly** in Munich.

The employment contract is permanent. Knowledge of the German language is not required (although it is a plus), but a high level of English (at least B1) is essential. Of course, we will provide support for your integration into Germany: accommodation, language course and assistance with bureaucratic matters are fully organized.

Feel free to contact us.
This is an opportunity worth considering!

Who is Randstad Germany?

Randstad has established itself as the global leader in human resources. We specialize in helping candidates find employment and assisting companies in identifying and selecting the right employees. We focus on connecting the right people with the ideal job opportunities, whether temporary or permanent.

For more information, we invite you to visit our website in Germany: randstad.de

Your responsibilities as an Electrical Helper for Lokomotive Assembly:

- You will be responsible for performing basic assembly and wiring tasks of components according to the provided plans.
- Additionally, you will carry out simple testing and measurement activities.
- You will collaborate with your colleagues in the installation and commissioning of electrical components.
- Moreover, you will complete assembly protocols and the corresponding testing documentation.
- At all times, you will ensure compliance with the established quality and safety standards.

Your Benefits:

- **Collective Agreement:** The employment contract is based on the BAP/DGB collective agreement.
- **Working Hours:** The employment contract specifies a standard workweek of 151,67 hours.
- **Salary:** The gross hourly wage for this position is 17,14€ gross in the beginning and rises after a few months up to 22,41€. Your monthly salary therefore ranges from 2599€ to 3398€ gross. Please note that deductions for social security contributions and taxes, in accordance with German regulations, will be applied to the gross salary.
- **Contract Duration:** We offer a permanent contract with Randstad. You have the possibility to get a direct contract with Siemens Mobility if your performance is satisfactory.
- **Holiday Entitlement:** Employees are entitled to 25 days of paid holiday during the first year of employment, ensuring time for rest and well-being.
- **Additional Benefits:** Holiday and Christmas bonuses are granted after completing at least 6 months of employment with the company.
- **Accommodation and Transportation:** We provide accommodation in a double room for the first 3 months, with a contribution of just 350€ per month, deducted directly from your salary. You can buy the "Deutschlandticket", offering unlimited travel across Germany for only 58€ per month. On your first day, we will assist you in obtaining the ticket.
- **Work Environment:** You will enjoy an international work environment, offering a dynamic and diverse atmosphere where you can collaborate with colleagues from various backgrounds.
- **Personal Support:** You will receive support from the Randstad team, ensuring you have assistance every step of the way during your transition and throughout your employment.
- **Training:** Free German language courses are provided to support your integration in Germany.

What do you bring to the role?:

- **Qualifications:** A technical diploma in Electrical and Automatic Systems (Grado Medio Técnico de Instalaciones Eléctricas y Automáticas) or a higher qualification in Electronic Maintenance / Electrotechnical and Automated Systems (Grado Superior Técnico Superior en Mantenimiento Eléctrico/en Sistemas Electrotécnicos y Automatizados) is required. Without one of these qualifications, your application will be rejected.
- **Language Skills:** A minimum of B1 level in English is essential for effective communication (German language is a plus). Upon arrival, we will provide access to online German language courses to support your integration and help you to adapt to the work environment more quickly.
- **Previous Experience:** You already have about one year experience with electrical and assembly work.
- **Shift Availability:** The position requires willingness to work in shifts, morning, afternoon, and night. Each shift consists of 7 net working hours. You will generally work from Monday to Friday. It might be necessary that you also work on a Saturday.
- **Technical Skills & Manual Dexterity:** You have a good technical understanding and strong manual skills.
- **Technical Instruction Reading:** You are able to read and follow technical instructions accurately.
- **Reliability & Attention to Detail:** Your work approach is characterized by reliability and attention to detail.
- **Nationality:** Applicants must be nationals of a European Union member state. This is a requirement for compliance with local employment regulations.
