Language Skills

In order to be able to land a permanent job as a early years school teacher, you need to have applied for and be granted a Swedish Teachers license. For this you need a high level of Swedish, which we think is not fair nor feasible at a short notice. That is why we want to hire you for one year at a time, even if you just begun studying the language. You will continue learning the Swedish language with our help, working in a Swedish organization and being submerged in the Swedish language.

When the time has come to apply for a license, we will support you with that. We could offer this job opportunity only if you have a good level of English.

We understand you do not speak Swedish, this does not make you less eligible for the job. However we do appreciate it and it is in your advantage that you have started to learn Swedish at this point. (Possibility to apply for economic support for a language course through EURES Targeted Mobility Scheme).

We shall support you in all the process, helping to contact with a Language School. (www.svenska-bcn.org)

Selection and interviews might take place continuously during the application period, so **welcome to apply today**. An **ONLINE information gathering is planned in April**, **on-site interviews with the employer are planned by the end May 2026 at a location in Spain** (announced at later date).
